What is EPR?

- Extended Producer Responsibility
(EPR) is an environmental policy.

The responsibilities of PIBO's
[Producer , Importers & Brand
Owners] has been extended to
collect back the plastics which they
have pumped into the Indian market
along with their product, in the form
of plastics or plastic packaging.

Benefits of EPR

We care for the FUTURE

- The scheme is moderated to prevent plastic waste mismanagement.
- Registration of EPR allows every PIBOs and PWP's to raise their environmental awareness with the public.
- It increases responsibility to encompass end-of-life treatment of the plastic products.
- Contributing to earth's clean environment.
- Strengthening fundamental issues of plastic waste management with rapidly changing technologies at the same time.
- We are working relentlessly towards a sustainable future and enabling a circular economy.

Recycling simplified

We help you to make a shift from the **"take-make-waste economy"** to a more **'circular economy'**
