# TURNING TRASH INTO **TREASURE**

**COMPANY PROFILE**

**Building a Sustainable Future Through  
Creative Solutions and Collaborative Efforts.**

# ABOUT US

We are a waste management and consultancy firm based in Nagpur, Maharashtra, launched in January 2024. We provide sustainable solutions for dry and wet waste streams, serving businesses, municipalities, and residential communities. Our core services include **EPR credit** facilitation, regulatory compliance management, documentation support, sustainability reporting, and facilitating **RDF** channelization through authorized waste-to-energy partners customized to meet each client's compliance and sustainability goals. We focus on reducing landfill dependency and supporting a circular waste system. With a dedicated team, we aim to create practical, eco-friendly systems that contribute to a **cleaner environment**.

# PURPOSE

- Our purpose is to promote sustainable waste management that supports environmental and social well-being. We believe waste should be seen as a resource, not a burden.
- Our mission focuses on reducing impact, increasing awareness, and enabling reuse through simple, scalable practices. We're building a culture of sustainability by combining innovation with community engagement.
- Our goal is to help people and organizations make eco-conscious choices that matter.

# OUR VISION

Our vision is to become India's most trusted and innovative leader in sustainable waste management, recognized for transforming waste into reusable resources and creating long-term environmental and social value. We aspire to redefine the future of waste by integrating advanced technologies, strategic partnerships, and data-driven solutions that enable a circular economy.

We envision a country where waste is seen not as a problem but as a potential resource, and where every citizen plays a role in protecting the environment. By fostering a culture of sustainability, transparency, and accountability, My Mati seeks to build cleaner cities, healthier communities, and a greener planet ensuring a lasting impact for future generations.

# OUR MISSION

At My Mati, our mission is to provide end-to-end, sustainable waste management solutions that are not only efficient and cost-effective but also environmentally responsible. We are committed to advancing the principles of reduce, reuse, and recycle by delivering innovative, technology-driven, and scalable services tailored to the diverse needs of businesses, municipalities, and communities.

We actively partner with government bodies, industries, and regulatory authorities to ensure strict compliance with environmental regulations and support the achievement of India's Sustainable Development Goals (SDGs). Our efforts go beyond service delivery, we focus on community engagement, awareness campaigns, and behavior change initiatives that empower citizens to become active participants in environmental conservation.

# OUR SERVICES

## EXTENDED PRODUCER RESPONSIBILITY (EPR)

We assist companies in meeting EPR obligations and managing their compliances. We offer our services in **Plastic, Battery, E-waste, Tyre, and Used oils**. We ensures end-to-end documentation, reporting, and partner coordination to simplify the entire compliance process.

## REFUSE-DERIVED FUEL (RDF) DISPOSAL

We provide **RDF** material as an alternative energy source, reducing landfill use and promoting energy recovery. This solution supports industries in shifting toward cleaner fuel options while contributing to environmental conservation.

## MUNICIPAL COUNCIL CONSULTING

We provide expert consulting in **Solid Waste Management (SWM)** and IEC (Information, Education, and Communication), helping municipal councils design and implement effective waste strategies. Our approach combines policy guidance and technical expertise for measurable community impact.

## DRY WASTE MANAGEMENT

We provide specialized services in the collection, segregation, and recycling of dry waste, including plastics and e-waste. By establishing efficient sorting and recovery systems, we help maximize resource utilization.

# OUR CAPABILITIES

We are a service-based company specializing in providing streamlined, compliant, and reliable waste management support services across India. Our solutions are designed to scale with the needs of our clients particularly **producers, importers, and brand owners (PIBOs)** helping them meet their regulatory obligations under the **Extended Producer Responsibility (EPR)** framework.

To date, we have successfully facilitated the management of:

✓ **1,00,000+ Metric Tons (MT) of Waste Credits through our Extended Producer Responsibility (EPR) Services:**

We act as intermediaries in the EPR ecosystem by enabling the transfer of verified plastic waste credits between authorized recyclers and obligated entities. Our services ensure that brands meet their compliance requirements with the **Central and State Pollution Control Boards (CPCB)**, without the need to handle physical waste logistics. Our team handles documentation, traceability, and report generation, ensuring full regulatory alignment and peace of mind.

✓ **14,000+ Metric Tons (MT) of Refuse-Derived Fuel (RDF) and Dry Waste Processed:**

We have successfully handled more than 12,000 MT of RDF and dry waste, converting non-recyclable materials into fuel for cement kilns and industrial furnaces. This process reduces landfill dependency, lowers greenhouse gas emissions, and supports energy recovery through sustainable waste-to-energy conversion practices. Our integrated approach enables the transformation of waste into valuable resources.

# ADDITIONAL CORE SERVICES

## Regulatory Compliance Management

- We manage EPR registration, documentation, and annual filing for PIBOs and stakeholders.
- We ensure all submissions align with CPCB/SPCB guidelines to avoid penalties and ensure seamless operations.

## Credit Aggregation and Trading

- Verified and certified waste credit solutions sourced from approved recycling partners.
- Our platform connects clients with a reliable network of recyclers and dismantlers for verified transactions.

## Client-Centric Support

- End-to-end assistance from onboarding to annual returns backed by industry knowledge and experienced professionals.
- Our dedicated support team ensures quick resolutions, updates, and hands-on guidance throughout the year.

# OUR ALLIANCES

**Certified Recycler Partnerships  
for Verified Compliance**

**Nationwide Brand Support  
for EPR Fulfillment**

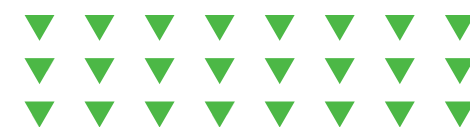

**Municipal Alliances for  
Smarter Waste Strategies**

**Collaborative  
Ecosystem Driving  
Scalable Sustainability**

# OUR CLIENTS

# WHY CHOOSE US ?

## ➤ Compliance-First Approach

We specialize in regulatory clarity and ensure that every process aligns with **CPCB** and **SPCB** norms. From documentation to reporting, our solutions are built around 100% legal compliance. You focus on operations while we handle your obligations.

## ➤ Seamless EPR Credit Facilitation

Our service-based model simplifies **EPR** through verified online credit transfers. We connect you with certified recyclers, track credits, and handle all paperwork. It's smart, fast, and fully traceable.

## ➤ Scalable & Transparent Solutions

Whether you're a growing brand or an established name, our systems adapt to your scale. With real-time updates, clear communication, and reliable reporting, we make sustainability measurable. You see the impact, not the hassle.

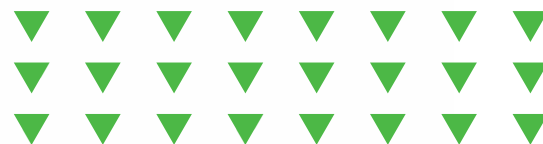

# THANK YOU

Together, we can transform this vision into reality with creativity, collaboration, and consistent effort.
